The Beatles: Their Impact on Music, Culture, and Fashion

The Beatles were trailblazers in the music industry. They changed the way music was recorded. They influenced the art world as well as American (and world) culture. Their influence is still felt today.

This class will discuss these changes to the music industry, and the everlasting effects of what their music said to a young impressionable America. We will also look at the many fashion changes, hair styles and how they incorporated music from other cultures into mainstream pop music.

Yeah, Yeah yeah!

Meet the Instructor

Scott Hoelldobler's passion for music began with trumpet at age 7. He listened to his parents' transistor radio in the backyard. He heard artists such as Herb Alpert and Chuck Mangione on his father's 8-track hi-fi. His own musical taste developed and he watched his best friends perform in the school auditorium and has been hooked on music ever since. He began playing guitar and going to concerts regularly (**more than 500 since 1984!**).

He has seen most of the great Rock Stars from the 60's, 70's and 80's live, including The Who, Pink Floyd, The Police, Van Halen, Elton John, Rolling Stones, David Bowie and CSNY. He has studied the influences of rock legends such as the Beatles, Eric Clapton, Jeff Beck, Eddie Van Halen, and Carlos Santana (and was even a roadie for a day for Meat Loaf).

Scott is excited to share his knowledge using a multi-media format, sharing his personal experiences and learning from the experiences of his students.

PBS Adult Education classes are taught using various instructional methods tailored to the specific needs of adult learners. Students will be encouraged to develop critical thinking, research and study skills, and utilize technology for learning and collaboration. All students inherently benefit from being engaged in an active college environment.
