Course Description - A Virtual Tour of The World: Cross Country America

Calling all of those who love to travel and crave wanderlust! Based on our successful courses "A Virtual Tour of The World" and "A Virtual Tour of The World Part II" comes A Virtual Tour of The World: "Cross Country America"! Students will participate in engaging lessons and conversations involving the rich history of each location and the culture that surrounds them. This includes language, clothing, cuisine, and more! There is a reason why some of the world's most famous parks are found on a "Cross Country Trip". Students will research and share information on park admission, travel fees, advocacy, and goals for this virtual bucket list adventure. After each location, students will participate in creating their own travel blog to share what they have learned and travel trips for other explorers. Our virtual tour will start in a place many of us call home, New York, and end up in the beautiful state of Washington. There is no time like today to pack your virtual bag and hop on board for a journey of a lifetime with friends old and new!

Your Instructor: Courtney Braun-Murano

Courtney Braun-Murano is the instructor. Courtney Braun is thrilled to be joining PBS for another remote learning class! Courtney is a 2nd Year Master of Social Work student at Stony Brook University's School of Social Welfare where she specializes in Family, Youth & Transition to Adulthood. Courtney has quite a few destinations that she wishes to visit, the top being Scotland! Some of her favorite international trips have included Ireland, London, and Paris. Courtney also loves to tour Orlando, Florida, more specifically Walt Disney World. Courtney has a love for cooking and local cuisine, labeling herself as a "foodie." Courtney's passion for history and travel comes from her Great-Grandfather who showed her at a young age what the world has to offer through his filmed trips across the globe. Courtney also has a strong passion for photography and the performing arts. She looks forward to seeing familiar faces old and new as we tour the world together!

PBS Adult Education classes are taught using various instructional methods tailored to the specific needs of adult learners. Students will be encouraged to develop critical thinking, research, and study skills, and utilize technology for learning and collaboration. All students benefit from being engaged with interesting material and collaborating with other students.
