## Course Description: Movie Monsters!

---

Movies are filled with wonderful and interesting creatures and characters we know and love, even if some are a little 'creepy'. From Godzilla to King Kong, there are strange and loveable beasts in films!

This class will discuss the history of monsters in movies and how they both reflect the society of their times and how they have thrilled and chilled movie-goers across the years. These monsters are world-famous and have been the basis for many great plots.

Don't be scared to come explore this wonderful world of Kaiju and movie monsters!

## Your Instructor

---

Vincent Gamboni is the instructor. Vince is immersed in all aspects of popular culture and fandom. Throughout the years, he has gone to events celebrating pop culture, such as Comic-Con and other conventions, where he gets to dress up and fully immerse himself in the experience. In addition to being a pop culture super-fan, Vince is a Personal Trainer and Crossfit Coach, Direct Support Professional and a Community Integration Specialist at PBS Consulting. Vince is also proud to have recently passed a test to earn the credential of a Board Certified Behavior Analyst.

Vince is excited to be sharing his passion and learning from the students. And having fun in the process!

*PBS Adult Education classes are taught using various instructional methods tailored to the specific needs of adult learners. Students will be encouraged to develop critical thinking, research and study skills, and utilize technology for learning and collaboration. All students benefit from being engaged with interesting material and collaborating with other students.*
