Anime And Manga: The History, Influence and Culture

Anime is an animation style that originated in Japan and Manga is the Japanese word for “comics” or “whimsical images”.

In this class we will be discussing the history, influence and culture of Anime and Manga. Students will take a “ deep dive” into Anime & Manga and how they have expanded into the western culture. Topics will range from cosplaying to the history that had started this movement...and beyond!

Classes will involve discussions and group activities. Students will have the opportunity to create their own hero and storyline during the course of the semester.

Meet the Instructor

Vincent Gamboni is the instructor. Since Vince was in middle school and Dragon Ball Z was popular, he has been immersed in the anime/manga culture. Throughout the years, Vince has expanded his taste to other shows and comics such as D. Gray Man, Death Note, Fairy Tale, Trigun, Tokyo Ghoul, Fullmetal Alchemist and much more. He enjoys going to events such as Comic-Con and other conventions, where he gets to dress up as some of his favorite characters from the anime world. Vince has been researching and participating in the world of anime and Japanese culture for years and is excited to be sharing his passion and learning from the students. And having fun in the process!

PBS Adult Education classes are taught using various instructional methods tailored to the specific needs of adult learners. Students will be encouraged to develop critical thinking, research and study skills, and utilize technology for learning and collaboration. All students inherently benefit from being engaged in an active college environment.
