History of American TV

This course will cover varying topics about something that has affected every aspect of our lives, Television!

The History of American TV will provide an overview of the technology and programs that made American TV (and media consumption) what it is today.

Students will learn about:

- precursors to TV, classic radio shows and serials
- the cultural importance of having a TV in one's own home(!)
- classic (Gleason, Milton Berle, etc.) to modern TV shows
- access to news with images and how this shaped society
- changing technologies (over-the-air to cable to streaming)
- how such changes affected the types of programs available

TV programs are constantly changing, as well as our technology.

Meet the Instructor

Courtney Braun is an absolute history buff when it comes to media, especially TV! She loves classic TV shows such as "The Brady Bunch", "Gilligans Island" and "The Twilight Zone". Some of her favorite recent TV Series include "Game of Thrones" and "Outlander". Aside from binge-watching TV Shows, Courtney loves to spend her free time with her dog, exploring photography as well as performing locally. Courtney is thrilled to be teaching PBS Adult Education classes again this year and looks forward to another incredible semester.

PBS Adult Education classes are taught using various instructional methods tailored to the specific needs of adult learners. Students will be encouraged to develop critical thinking, research and study skills, and utilize technology for learning and collaboration. All students inherently benefit from being engaged in an active college environment.
