#### **CREATIVE WRITING & MORE**

**Wednesday- 1:00 pm -2:30 pm - Instructor: Gabby Sharp**

This course will explore the ways we read and write creatively using various forms such as poetry, text messages, graphic novels, advertisements, and more! Students will learn about these different forms of creative writing and how their own creative expressions convey messages and understanding that may change based upon the interpretation of the reader/listener. In addition to learning the different forms of creative writing, students will write their own and interpret the work of other students with constructive and supportive feedback. Even if students prefer not to write at all, there are varying ways to express ourselves creatively! Everyone's creative voice will be heard and shared in this class.
