**Registration: <http://www.positivebehavior.org/adult-education.html>**

**Questions: [AdultEd@PositiveBehavior.org](mailto:AdultEd@PositiveBehavior.org)**

## History of Rock and Roll

Some say Rock is dead. Pete Townsend of The Who wrote “Long Live Rock!”

This course will be an overview of Rock N’ Roll music and its influence on fashion and society. From:

- the very beginning (Bill Haley, Jerry Lee Lewis, Elvis!)
- the British Invasion (The Beatles, Kinks, Hollies, Rolling Stones, The Who)
- the rise of American Rock (Beach Boys, Aerosmith, Prince)
- Psychedelic Rock and the West Coast Sound (The Grateful Dead, Jefferson Airplane, The Beatles again!)
- Hair Bands (Warrant, Def Leppard, Guns N’ Roses)
- Singer-songwriters and rock n’ roll heroes (James Taylor, Neil Young, Bruce Springsteen, Tom Petty, Billy Joel, Elton John)
- And more, even up to today...Radiohead? Tool?

Students will have fun and learn a lot. They will be encouraged to bring their favorites into the discussion and to be open-minded to new music and differing opinions about what is good and what is...maybe not so good. I am sure that we can disagree...without being disagreeable. A splendid time is guaranteed for all!

## Meet the Instructor

**John Innis**, is passionate (and opinionated) about popular music of all kinds. As a Baby Boomer, the predominate soundtrack to his life has been that of Rock N’ Roll. John has seen many concerts and has had several brushes with fame in his lifetime, most recently with Robert Plant of Led Zeppelin! Seriously, he has taken courses on Rock N’ Roll history and is thrilled to share his knowledge and experience with students.

John is a Director at PBS Consulting in Northport and is a NYS Licensed Behavior Analyst. In his spare time, John likes to hike and bike and spend time with friends and family.

*PBS Adult Continuing Education classes are taught using various instructional methods tailored to the specific needs of adult learners. Students will be encouraged to develop critical thinking, research and study skills, and utilize technology for learning and collaboration. All students inherently benefit from being engaged in an active college environment.*

Space made possible through a grant from  
Positive Behavior Support Community Foundation
