Disney Through the Decades: Film Analysis

If there is something in common for everyone, that would be the love of Disney.

Whether you are a fan of Fantasia, Beauty and The Beast or Star Wars: The Force Awakens, we can agree that Disney has remained a leader in the entertainment industry surrounding their films.

Students will engage in viewing Disney films through an analytical lens, breaking down elements such as technology, theme, sound, direction, and more.

This course is sure to fill up quickly, so register today to join our Mousketeers on another great semester!

Meet the Instructor

Courtney Braun: Courtney is thrilled to be teaching another semester for the PBS Campus Experience. As a graduate of Stony Brook University with a degree in Psychology, Courtney was a writer for the online school journal. She loves being able to explore the campus and the community of Stony Brook with others. Courtney has a passion for the arts, traveling, food and all things Disney! We hope you consider joining us this semester. It is going to be wonderful!

PBS Adult Education classes are taught using various instructional methods tailored to the specific needs of adult learners. Students will be encouraged to develop critical thinking, research and study skills, and utilize technology for learning and collaboration. All students inherently benefit from being engaged in an active college environment.
