### **LIVE ACTION DISNEY FILMS- A COMPARATIVE ANALYSIS: PART II**

**Mondays 10:00 am-11:30 am; Instructor: Courtney Braun**

We are entering a new world of Disney! With the recreation of classic films that we have loved for years, some say that we have entered the second renaissance of Disney. As technological advancements have been made to further develop characters such as candles, lions, and mermaids! Students will learn how these beloved characters came to life in a new style of animation, as well as the technological processes behind a live-action film. Students will explore and reflect on differences and similarities between the original film and the live action as well as share their opinions in an analytical review. Examples of some films that may be reviewed in class are The Jungle Book, Pinocchio, Lady & The Tramp, Mulan, Maleficent, and more!

### **HARRY POTTER & THE HALF-BLOOD PRINCE**

**Mondays 12:15 pm- 1:45 pm ; Instructor: Courtney Braun**

Welcome aboard students for another summer semester of Harry Potter at Hogwarts School of Witchcraft & Wizardry at PBS! Following our successful semester focusing on The Order of The Phoenix, students will explore the next book in the Harry Potter Series: The Half Blood Prince. Students will be reading the book both in class and on their own to focus on literary elements and themes. Students are welcome to read in a method that works best for them. Once complete, the class will view the film version through an analytical lens, comparing and contrasting the two works and how this piece (and the totality of the Harry Potter phenomenon) has impacted the world. While strongly encouraged, students do not have to have read the previous novels to join this course.
