

PBS Adult Continuing Education (ACE) Classes

Summer 2023, Session II- Wednesday

On campus in the Wang Center at Stony Brook University

FAMOUS ARTISTS

Wednesdays 10:00 am-11:30 am; Instructor: Gabrielle Sharp

Did you know that Leonardo da Vinci Was a Procrastinator and Vincent Van Gogh Only Sold One Painting? Quite a few artists have made a lasting impact on the way we see, create and appreciate art; Thus leaving us with pieces like Michelangelo's sculpture of David, or Van Gogh's Starry Night. In this class, we will discuss different types of art and the world's most famous artists from the past and present. Be excited about online museum tours, and discussions of the lives and history of the artists, and learn how art has transformed over the last 45,000 years!

THE BIG BANG!

Wednesdays 12:15 pm- 1:45 pm; Instructor: Gabrielle Sharp

The Big Bang Theory is our best guess about how the universe began. Astronomers say the universe as we know it started with an infinitely hot and small single point that inflated and stretched over the next 13.7 billion years to the still-expanding cosmos that we know today. Students will learn about the viewpoints of scientists like Carl Sagan, Bill Nye the Science Guy, Neil deGrasse Tyson, and Stephen Hawking. Through this exploration of scientific theory, students will learn how every atom of oxygen in our lungs, carbon in our muscles, calcium in our bones, and iron in our blood was created inside a star before the Earth was born!

MEET YOUR INSTRUCTOR: GABRIELLE SHARP

Gabrielle Sharp has a Masters in Human Services Leadership, a BA in Psychology, and an Associates in Liberal Arts with a Minor in Creative Writing! She is most currently working supporting families and individuals in accessing the supports necessary to be fully included in all aspects of community life and achieve their goals. She looks forward to meeting her PBS ACE students and cannot wait to see what they can accomplish together!
